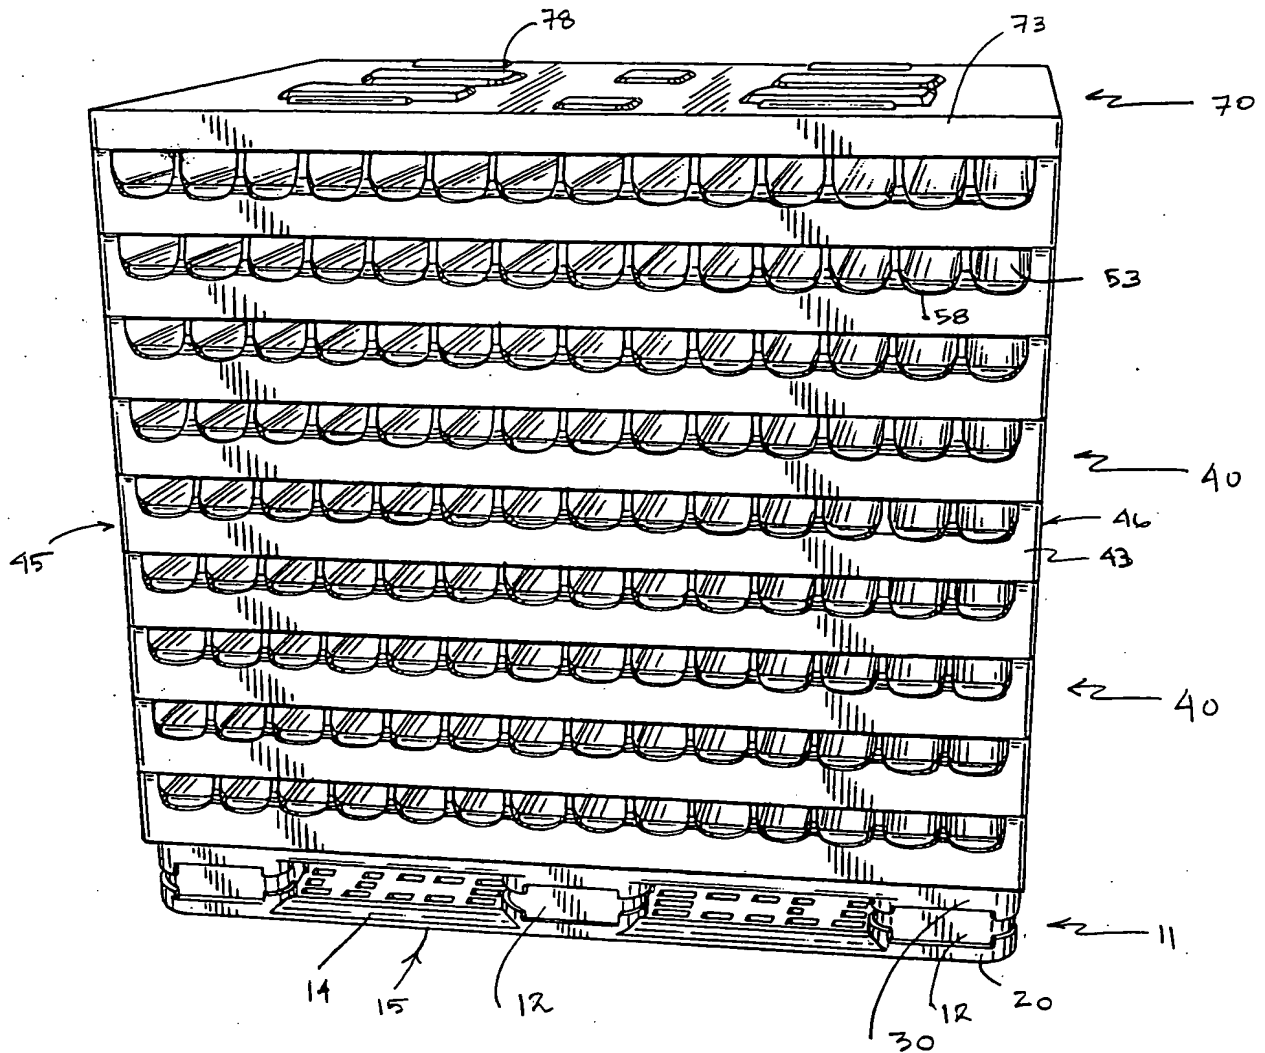

FIG. 2

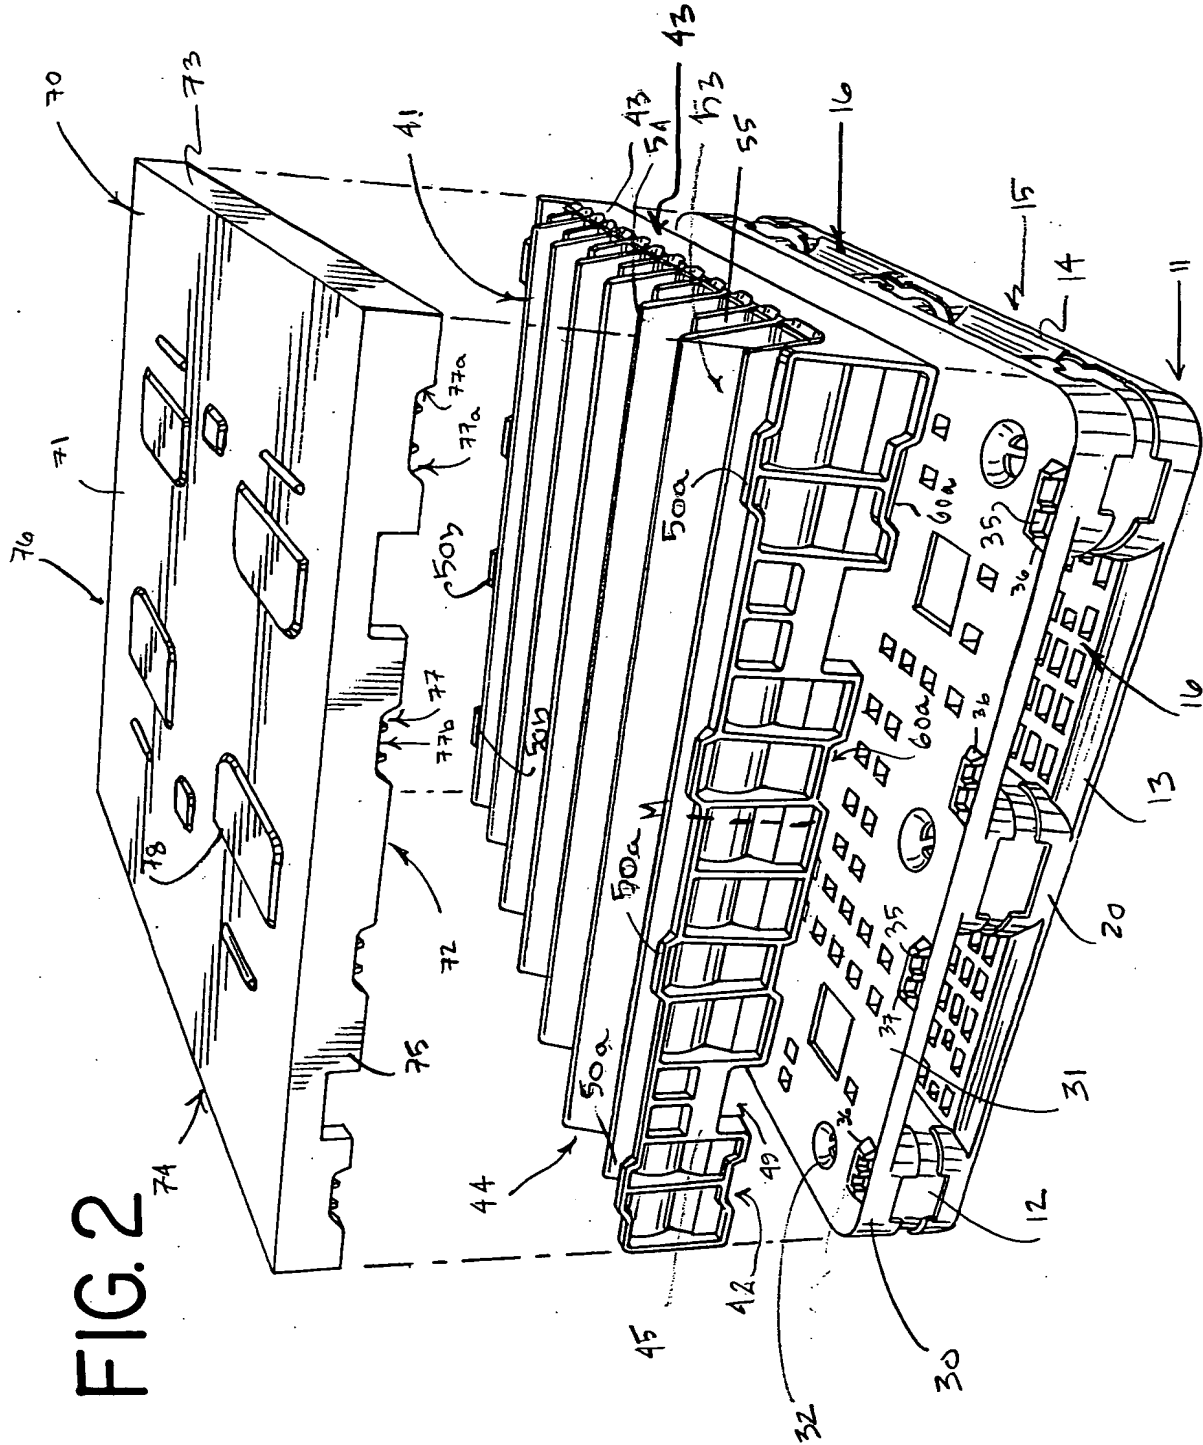

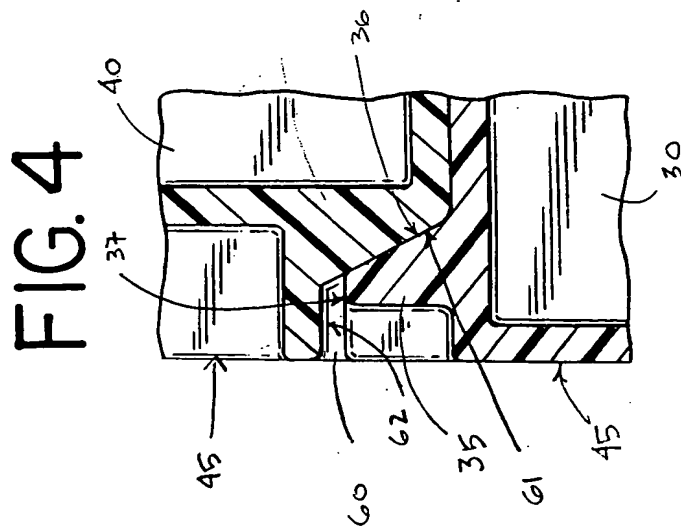

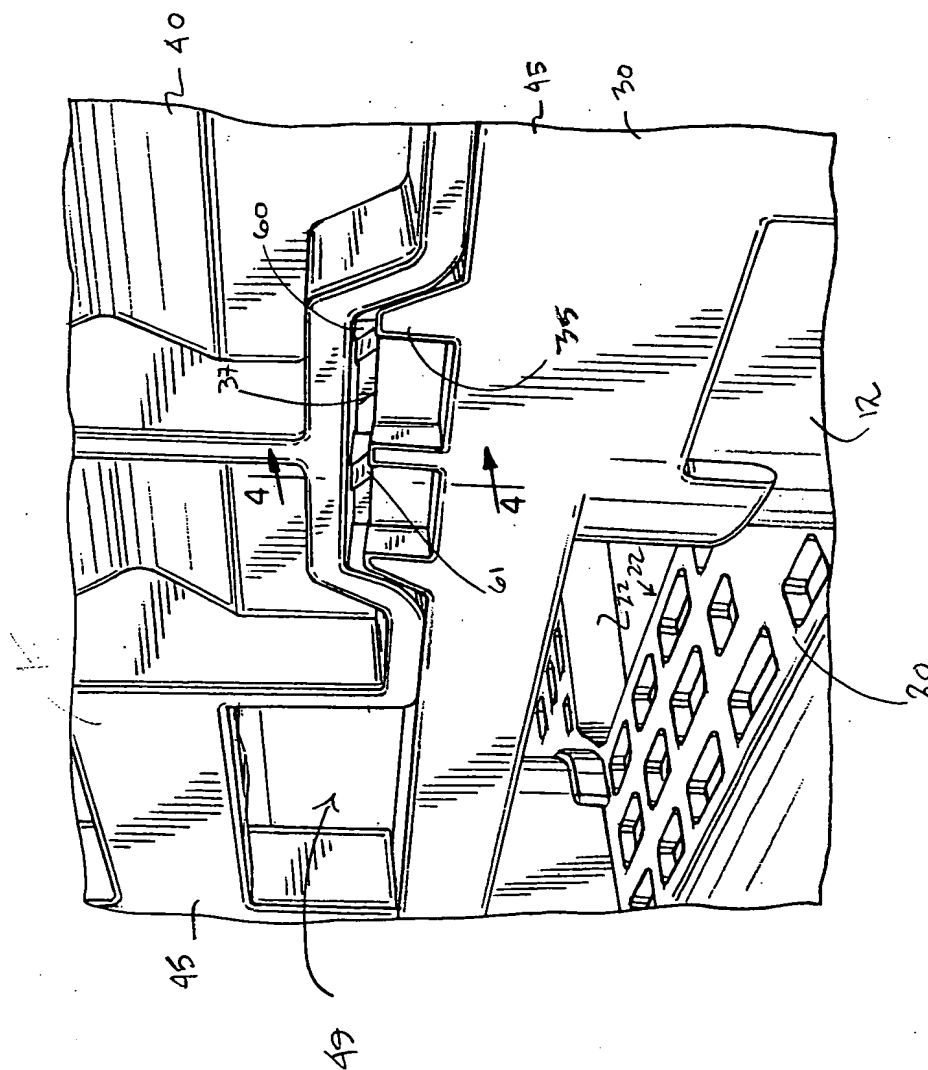

FIG. 3

FIG. 3

A cross-sectional view of a substrate 30. The substrate has a top surface 31 and a bottom surface 32. Two protrusions, labeled 38 and 38a, are formed on the top surface 31. The protrusions are shown in cross-section, revealing their internal structure. The substrate 30 is indicated by a bracket on the right side.
